WHAT IS FLICKR

- ◉ Flickr is a popular photo-sharing and hosting service with advanced and powerful features.
- ◉ It supports an active and engaged community where people share and explore each other's photos.
- ◉ You can share and host hundreds of your own pictures on Flickr without paying a dime.
- ◉ There's also a pro service that gets you unlimited storage and sharing for about \$2 a month, making it one of the cheapest hosting sites around (more on that later).

CREATING YOUR BUDDY ICON

- Every flickr user has a 48x48 pixel buddyicon used to represent themselves.
- You can use images
 - From your flickr account
 - From your computer
 - From the web

Your profile / Edit / Your buddy icon

Your buddy icon is what we use to represent you when you're in Flickr.

Your icon is 48 X 48 pixels in size.

We've got an "Icon Builder" to help you if you need it. It's a **tool** which allows you to choose an image, load it into the builder and then crop or resize an area of that image to publish as your icon.

Where's the image you want to use?

- [In your Flickr photos](#)
- [On your computer](#)
- [On the web](#)

OR If you have a 48x48 icon ready, upload it here.
